

Where solar innovations **come to light!**™

SlimSign

The SolarPath SolaSigns are the most advanced solar powered road signs in the market. Featuring ultra-bright light, visible at a great distance at both day and night, combined with all-weather durable casing, putting the SolarPath SolaSigns in a class of their own.

SlimSign

SolaSign SlimSigns are the most advanced solar powered road signs in the market. They feature the slimmest and most durable form factor, and ultra-bright light. Visible at great distances both day and night, the SolarPath SolaSigns are in a class of their own.

Advanced Chip-LED technology, top of the line reflective materials, and sophisticated circuitry all ensure high performance and increased road safety.

The SolaSign SlimSigns are customizable to local standards and can come in any variety of designs and configurations.

An additional vertical mount solar panel is an available enhancement for a "boost" in long-term cloudy conditions.

SolarPathSola

SlimSign Technical Specifications	
Technology and Operation	
Illumination technology	Ultra-bright LED
Energy storage	7.2V 2500mA Li-on battery
Charging time	4 Hours (sunny) to 8 hours (cloudy or rainy)
Temperature range	-40F to +176F / -40C to +80C
On/Off level	24 hours operation
Operation modes	Switchable - On / Off / Auto
Warranty	1 year
Illumination Properties	
Available flash patterns	Slow: 25±2/min Fast: 50±5/min
Available L.E.D colors	White, Blue, Red, Green, Amber
Light visibility distance	Up to 3,300 feet / 1000m (varies according to weather conditions)
Material and Design	
Body	Aluminum board
Reflector	3M reflective film
Dimensions - Body	Varies according to design
Dimensions - thickness	0.2" / 5mm
Weight	Varies according to design
